To Whom It May Concern:

I have had the pleasure of working with Mr. Tim Lentile with Lentile Construction approximately eight years as Superintendent. His work has been exceptional in our district and I would highly recommend your schools consideration of his company. He takes great pride in his workmanship and never settles for anything less than the best product for both the school system and tax payer's money. As a construction manager, he is on site and readily available when called upon. He has always been assessable long after the work is completed to perfect those final punch list items. In summary, he treats the projects as if they are personally his own and that is much appreciated in Appling County.

Listed below are several construction management projects Lentil Construction Company has performed for the Appling County Board of Education:

- Pre-K Facility
- New Track Facility
- Altamaha Elementary School Construction and Renovation
- Fourth District Elementary School Renovation
- New Track Concession and Storage
- Middle School Additions
- Athletic Facilities Renovation
- New Bus Shop
- Appling County Elementary and Primary Complex Renovation
- Appling County Middle School Renovation

Again, we consider our relationship with Lentile Construction to be excellent. They have worked with us extremely well and have completed these projects on time and provided quality workmanship. We have other projects in the planning phase and look forward to others in the near future.

Sincerely,

A handwritten signature in cursive script that reads "Scarlett Miles Copeland".

Scarlett M. Copeland
Superintendent of Appling County Schools
